# 6th Annual BU School of Law Public Interest Retreat

## Defining Community within Public Interest

The weekend is a chance to develop meaningful connections with fellow students, alumni, faculty, and leaders across various fields. Drawn from the far-reaching impact of recent SCOTUS decisions, our panels and small group discussions will encourage deeper exploration into topics ranging from reproductive rights to immigration. We hope you will find your community at BU and beyond! This weekend is your introduction into discovering your path within public interest lawyering.
